Regeneus Ltd (ASX: RGS) – Quarterly results for the period ended 31 March 2017

The company's Appendix 4C – Quarterly Cash Flows Statement is attached.

The highlights for the quarterly reporting period include:

- Receipt of the upfront payment of US\$5.5million on 20 January 2017, in accordance with the terms of the strategic collaboration and licensing agreement with AGC of Japan.
- During the quarter withholding tax and transaction costs associated with the licence fee received of \$820k were paid. Additionally, the movement in the US\$ exchange rate had a material effect on the US\$ cash balance held reducing the A\$ equivalent by \$370k. The A\$ to US\$ exchange rate has softened since the end of the quarter reversing 20% of this exchange loss.
- Cash outflow for the quarter (after adjusting for the two previously mentioned items) was \$2.06 million. The increase over prior quarters reflects the planned acceleration of R&D activities.

The sources of funding for the company over the next 18 months include; the R&D tax incentive; shareholder loan repayments relating to the funding of employee options exercised as part of the IPO in 2013; and additional licensing and milestone payments. These sources of cash should ensure that the company has adequate funding to support its R&D, clinical trials and operating activities for FY'17 and FY'18.

Further licensing opportunities will provide additional funding for incremental activities.
